A learning organisation – better has no finish line

Our Vision:

To differentiate ourselves by creating innovative products and to create our wings in Europe, and Australia by create opportunities' for future innovators.

Our goal and pride is to deliver simple practical solutions to complex 'real world' problems. We accomplish this by beginning with extensive consultation with clients to understand their issues, and developing or configuring software that is clever, easy to use and integrateable, thereby maximizing safety and minimizing risk.

Our Mission:

We envision ourselves to be a value added by combining leading-edge business strategy and Innovative IT knowledge, to develop efficient and effective solutions that keep businesses one-step ahead.

Ascenteq Info Solution is a global IT solutions provider. Our core team is formed with skilled professionals in the areas of Web Application Development, Software Development and Mobile Application Development.

Consulting

Our unique combination of IT know-how, industry knowledge and extensive experience with business processes distinguish us from other service providers. Our team possesses more than 15 years of experience in the collaboration market. We cover a variety of different aspects, from the improvement of collaboration, to the optimisation and securing of electronic communication and individual administrative services.

Web Application Development

Ascenteq understand that when it comes to custom application development, enterprises require applicability, flexibility and more importantly reliability, in the early as well as the later development stages to ensure a productive application life. Consumer oriented applications are measured in the same yard stick. Our aim remains to developing fully integrated, streamlined solutions for businesses all over the world. Our

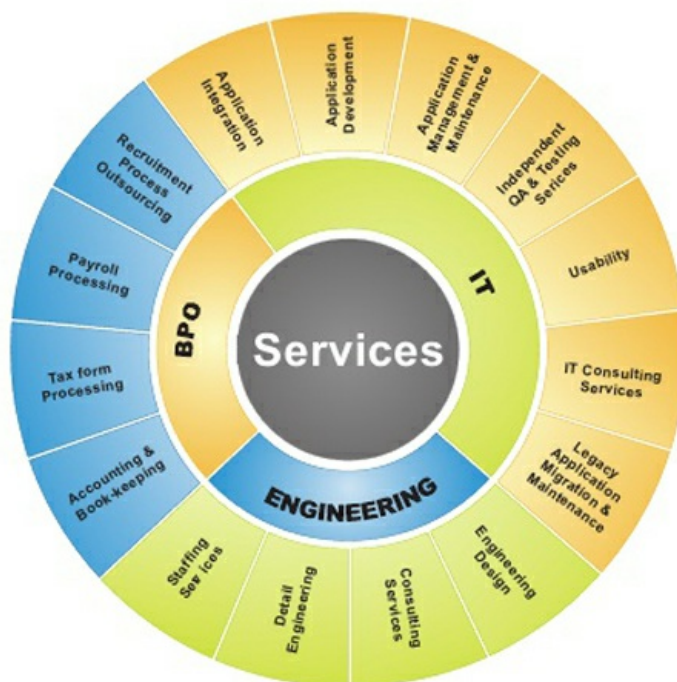

expertise with this broad spectrum of tools and methodologies allows us to match our skill sets with the unique needs of the customer. Our knowledge transfer disciplines ensure that our experience delivering solutions to clients around the world delivers maximum value from start to finish of each project.

PHP DEVELOPMENT

Our outsource PHP development needs to our expert PHP programming team. We are capable of handling any type of PHP application development and implementation. We have over 7 years of Open source based application building and customization experience in LAMP environment. We have completed over 2000+ web based applications with our PHP programming service to our clients across the Globe.

Custom CMS development:

Our CMS development team in India can provide Client custom coded CMS, based on Client requirements using Classic ASP, ASP.NET, PHP or Java. We use globally accepted standards such as Secure Admin interface, JavaScript / Ajax based Editors, jQuery effects, Design-content Separation with

templates, user management, and security and SEO friendliness.

We also provide custom CMS solutions based on frameworks, such as CakePHP, Zend, CodeIgniter, Yii and Laravel

Open source based CMS:

We provide CMS solutions with wide range of Open source based CMSs.

Our expert developers can

- Build CMS templates for WordPress, Joomla, Typo3, ModxCMS and Drupal and Hippo CMS
- Help Client to find right web hosting
- Customize a predefined feature that comes with off-the-shelf CMSs.
- Develop custom modules (Plug-ins/extensions)
- Make the CMS driven sites SEO friendly
- Provide multi language support
- Integrate custom or ready built design templates (Client supply PSD and we do the HTML code)

Mobile Application Development

Our Mobile application development is the process by which application software is developed for small low-power handheld devices such as personal digital assistants, enterprise digital assistants or mobile phones. Our applications are either pre-installed on phones during manufacture, or downloaded by customers from various mobile software distribution platforms.

Ascenteq Mobile Application Team provides technology-driven mobile application development that meets the strategic objectives of its clients. Ascenteq has the expertise in customizing Android, iOS, Windows and Symbian OS products according to the customers' goals and needs that leverage the customer expertise in its domain to meet the overall goal.

TESTIMONIALS

Working with Ascenteq was an OUTSTANDING experience. Communication was strong at every stage of development and beyond to deliver.

BOB MURPHY | Founder of Insuranceusa

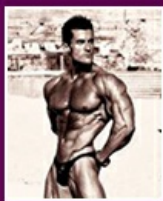

I hired Anish to build a website for a company I was dealing with at the time. Anish took great care in understanding my requirements on a technical business and aesthetic

CASEY ELLIS | Founder at Bugcrowd

Working with Ascenteq has been a pleasure. They have a wide range of great technical skills and completed my website design to a high calibre. Thoroughly recommended and now using them for the second phase. Well done!

STEPHEN | Founder at Bugcrowd

I just wanted to take this opportunity to say how pleased I am with the quality of work carried out by the professional development team of ASCENTEQ

STEVE JONES | Founder of natural bodz live

ASCENTEQ have taken our business to the next level. Their professional solutions continue to impress us and their knowledge has catapulted our sales. They have created 4 different websites for our companies; all with excellent results. I will sure use them for all my upcoming projects and recommend them !!

JOSHUA OGUNTIMEHIN | glovir.com

I am really happy with your service, it is exceptional, and Ascenteq is just great. When I have a question they answer it at once, they have more than an outstanding customer service. After having a bad experience with my old Web Designer Company, I would say that Ascenteq people are very professional and their knowledge is incredible, they also solve problems very fast, I am impressed. I recommend Ascenteq to all my customers, friends and clients

PIERRE VAN WYK | www.lookgoodfeelgooddiet.com

We never stop improving our services, including development methodologies, engineering practices, management techniques and QA standards to enhance our team's capabilities and increase customer satisfaction.

Customer-Focused Approach and Innovation

ASQ is a client-centric organization. We make it our business to understand and help our clients achieve their business goals

Experience and Expertise

With 1,500 completed projects under our belt, ASQ has gained unmatched business and technological expertise. We leverage our large knowledge base to deliver solutions that meet customers' needs, business and budget expectations.

Commitment to Quality

While retaining competitive rates, we never compromise the quality of our services. A dedicated quality assurance department monitors project activities at all development phases and guarantees defect prevention, project risk mitigation and high quality results.
